Subject: Domestic Water Well Sampling Radius

Bob,

Do you know the radius at which you will be sampling domestic water wells? On the original monitoring well layout (attached) I noticed a 1 mi and 2 mi radius offset from the vertical wellbore, however, I recall us have a discussion about utilizing radii of  $\frac{1}{4}$  mi from the lateral and  $\frac{1}{2}$  mi from the vertical wellbore.

Thank you,

Chris Hill
